

**Diecards™ Better than Dice**

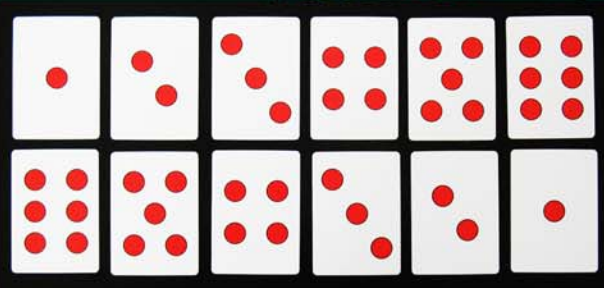

*Diecards™ are at the heart of Play Craps. The size of regular playing cards, each card has a design representing the face of a traditional die, but much larger for easy viewing. Two cards are drawn by a dealer and turned over—close to the players and close to the action.*

# It's Craps, but Better

- New table design
- Comfortable seating
- Traditional Craps Odds
- Exciting Action

“Craps is my favorite game and I do play it a lot. However with Play Craps, it's much more comfortable and it just makes me want to keep on playing.”

“The only reason I never played craps before is that it was just hard to step up to the big table and figure out what was going on. With Play Craps it's easy to just sit down and get in the game.”

“It's easier to play because you can see everything right there on the table.”

“It's just more cozy and friendly, like you're hanging out with a group of friends. I like that you can sit down – that's important if you're wearing high heels.”
