Quick Facts about Play Craps

1. Game uses 324 "DieCards,™" custom designed and trademarked cards the size of traditional playing cards, but each having the image of a die on its face. (One to six dots).
2. Odds and payouts are the same as traditional craps.
3. Game moves more than twice as fast as traditional craps as dice handling is eliminated. More decisions per playing time means more revenue for house. In Nevada Gaming Commission field trial, hold stabilized at 27 percent.
4. PlayCraps table is half the size of traditional "tub" craps table, freeing up valuable casino floor space. Seating is provided for nine players. Players may stand if they desire.
5. Only two dealers are needed for full operation—half the personnel required by a traditional craps table. (One dealer can operate game if only three to four players are at table.)
6. The PlayCraps™ table design is trademarked and pat. pending.
7. Game statistics confirmed by analysis by Gaming Laboratories International and Nevada State Gaming Control Board.
8. Only dealers handle the cards which may be dealt from a continuous automatic shuffle machine, or from a shoe.
9. Elimination of dice increases game security.
10. Game appeals to a new craps market, people who are "intimidated" by traditional craps and who don't want to be "blamed" by other players when they roll "seven out."
